

This acid coil cleaner removes dust, dirt, grime, grease and oxidation from aluminum or copper coils and fins of cooling units and air conditioners. Use it regularly to clean the coils for more efficient operation and lower power consumption.

**DIRECTIONS:**

For initial cleaning of heavily soiled or corroded coils, dilute 1 part of this cleaner with 5 parts water. Spray or brush onto coils and allow to penetrate for 3 to 5 minutes. Flush coils thoroughly with clean water.

After initial cleaning, maintain coils with regular cleaning using a 1:10 dilution of cleaner. Always rinse thoroughly with clean water.

Do not use this cleaner around food or on food contact surfaces.

# COIL CLEANER

FOR AIR CONDITIONER &  
REFRIGERATION COILS

**DANGER**  **POISON**

MAY BE FATAL IF SWALLOWED.  
CAUSES SEVERE BURNS WHICH MAY NOT BE
