

This acid "pH-down" adjustment is the convenient liquid approach to lowering the pH of pool water or neutralizing alkalinity. It works quickly and effectively without clouding pool or spa water.

DIRECTIONS:

The amount required to lower the pH depends on the water's natural buffering capacity. Add 1 to 2 quarts directly to the pool at a point of strong agitation. Do not add to the skimmer or vacuum. Allow 15 to 20 minutes for thorough mixing, then retest the pH. Repeat treatment if needed.

ACID "pH-DOWN" ADJUSTMENT

CONCENTRATED LIQUID LOWERS
pH WITHOUT CLOUDING WATER

DANGER  **POISON**

MAY BE FATAL IF SWALLOWED. CAUSES
SEVERE BURNS. VAPOR HARMFUL.

See side panel for further cautions
and first aid instructions.

KEEP OUT OF REACH OF CHILDREN

Sold By:

DANGER  **POISON**

MAY BE FATAL IF SWALLOWED.
CAUSES SEVERE BURNS.
VAPOR HARMFUL.

Contains hydrochloric acid. Do not inhale or swallow. Keep away from skin, eyes and clothing. Wear rubber gloves when handling. Use with adequate ventilation. Do not mix with any other chemical.

FIRST AID:

External: Flush with plenty of cool water for at least 15 minutes.

Internal: Drink large amounts of water. Follow with milk of magnesia, beaten eggs or vegetable oil. Call a physician immediately.

Eyes: Flush eyes and under eyelids with water for at least 15 minutes. Obtain immediate medical attention.
