

DIRECTIONS FOR USE: CRYSTAL IMAGE Spray-On Restorer has been precision formulated to match the composition of CRYSTAL and JEWEL Floor Finishes. Its unique Reactive Polymer Matrix (RPM) adjusts to machine speed and pad type to restore your finishes maximum gloss. A regular spray buffing program, featuring CRYSTAL IMAGE, repairs scratches and marks, enhances finish durability and extends finish life.

Dry mop the entire floor using a dust mop treated with CLEAR ATTRACTIONS Dust Mop Treatment to remove loose soil. If a heavy soil film remains after dry mopping, clean floor with a damp mop or an autoscrubber using EXCEL CLEANER.

Apply a light mist of CRYSTAL IMAGE to the floor. Move buffing machine in a gentle side to side motion until floor appears dry and shiny.

**PROFESSIONAL SECRETS
TO EFFECTIVE FLOOR CARE:**

- Floors should be dust mopped and damp mopped before spray buffing - accumulated dust and dirt cause unsightly scratches or abrasions that will significantly reduce finish durability and lead to frequent stripping and recoating.

CRYSTAL IMAGE SPRAY BUFF

SPRAY-ON GLOSS RESTORER

REACTIVE POLYMER MATRIX PRECISELY
MATCHES RESPONSE TO MACHINE SPEED

READY-TO-USE FORMULA - ELIMINATES
GUESSWORK

CAUTION: May irritate eyes. Do not take internally. See side panel for additional precautionary statements and first aid instructions.

KEEP OUT OF REACH OF CHILDREN

Sold By:

- Inspect pads frequently. If pads show an accumulation of old floor finish, dirt or accumulated restorer solution in the space between pad fibers, clean or replace immediately.

- Store damp pads in plastic bags between uses. Dried-out pads can scratch floors and require substantial amounts of spray buffing solution to become usable again.

- Spray buff a small area (approximately 5 foot x 5 foot) at a time, then move on to the next area.

CAUTION: May irritate eyes. Do not take internally. Avoid contact with eyes. Prolonged or repeated contact with skin may cause irritation. Use with adequate ventilation. If in eyes, flush with cool water for at least 15 minutes, if irritation persists, obtain medical assistance. If swallowed, contact physician or poison control center immediately. Give person several glasses of water and induce vomiting. Never induce vomiting or give anything by mouth to an unconscious person. If on skin, wash thoroughly with soap and water.
